## EDUCATION

11/2024 - 09/2025  
AUSTON COLLEGE

- Higher Diploma in infrastructure & Networks

06/2018 - 03/2019  
B.E.H.S (3) SANCHAUING

- Completed Grade 10

## SKILLS

- IP Addressing & Network Fundamentals
- Ruijie Cloud
- Teamwork
- Time Management
- Python
- Ubuntu
- Critical Thinking

## LANGUAGES

- English (Intermediate)
- Burmese (Native)

## HOBBIES

- Team-based online gaming, developing communication and collaboration in fast-paced environments

## WORK EXPERIENCE

### Protocol Solutions

Junior Network Engineer

05/2026 - PRESENT

- Assisted in network installation, configuration, and maintenance of routers, switches, firewalls, and access points.
- Used Ruijie Cloud to monitor, manage, and configure network devices remotely.
- Supported users and collaborated with senior engineers on network upgrades and security implementation.
- Monitored and troubleshoot LAN/WAN/wireless issues

## CERTIFICATES

Certificate of Completion: CCNA 200-301 — CCNA VCE Training  
06/2025 - 02/2026

Cloud Computing Fundamentals — IBM SkillsBuild  
01/2026 - 01/2026

MikroTik Certified Network Associate (MTCNA)  
07/2025 - 10/2025

Certificate of Completion: Computer Basics (Microsoft) — KMD  
07/2021 - 09/2021

Business & Essential Employability Skills Certificate — SFUx  
06/2021 - 07/2021

## NETWORK PROJECTS

### Network Monitoring & Performance Analysis using Netdata

- Deployed and configured Netdata on Ubuntu to monitor system and network performance in real time, analyze key metrics, and support troubleshooting and performance improvement.

### Cisco Switch & Router Network Deployment

- Designed and implemented a LAN network using Cisco routers and switches, configuring VLANs, Router-on-a-Stick for inter-VLAN routing, EtherChannel for link aggregation, VoIP services, Port Security, and ACLs to enhance network performance and security.

### Network Configuration & Routing Lab using MikroTik Routers

- Gained hands-on experience with MikroTik RouterOS, including IP addressing, routing, NAT, DHCP, firewall configuration, and wireless network setup.

## Recommendation Letter

Name - Sir Kaung  
Position - Founder & Principal  
Organization - CCNA VCE TRAINING  
Address - 75 Baho Street , Hledan Kamaryut TSP,YGN  
Email - sirkaung@ccnavcettraining.com  
Phone - 09-776442067

Respected Sir/Madam,

I am writing to highly recommend “Thu Ta Aung Myo” who has recently completed a "CCNA 200-301" course under my supervision at [CCNA VCE TRAINING Network Academy]. Throughout the duration of the course, “Thu Ta Aung Myo” demonstrated exceptional dedication, enthusiasm, and a strong aptitude for networking concepts.

“Thu Ta Aung Myo” actively participated in class discussions, contributed effectively to group projects, and achieved outstanding results in assessments and practical exams. Their dedication, technical proficiency, and interpersonal skills make them well-suited for roles in networking and IT.

I am confident that “Thu Ta Aung Myo” will excel in any networking-related position they pursue. Please feel free to contact me at Phone Call or Email Address for any further information.

Thank you  
Yours faithfully,  
Sir Kaung
